

To whom it may concern

The signatories **Albine TEISSIER**, Expertise Manager & Business Developer of LCB Food Safety, PAE Actiparc, 01190 Boz, France,

With this letter we wish to inform you that **Fumagri® HA** is a registered product in France and used in food processing and also Agri.

Its formulation is made from HA (Hydroxycetic Acid) as an active substance.

HA does not penetrate the egg shell or egg shell membrane and thus, has no effect on embryo, yolk and albumin of the egg.

*Boz,
November 2016.*
